

Build a Speaker for Your Personal Music Player

S (Grade 9-10), A (Grade 11-12)

What can you make out of a disposable cup, a speaker jack and a few household items? Local students are learning you can make a speaker for your iPod, thanks to a program developed by the Sweet Briar College engineering program. A kit consists of a Styrofoam and plastic cup, a spool of thin copper wire, two rubber bands, a square of sandpaper, a tiny magnet and a speaker jack, all housed in a small plastic container.

When: October 24, 2009 - Workshop from 10 a.m. to 12 noon

Where: Guion 127A
Sweet Briar College
